

The north ship

1. What did the wind do to the ship ?

Ans when the second ship started its journey the wind hunted it like a wild beast. It keep the ship In captivity so could not sail further.

2. Give any two points difference in the journey of the third ship and the order to ships.

Answer Unlike the other two ships the third one did not get a breed of wind favorable or unfavorable only in its case a fire spilling start was noticed.
